Nine out of every ten men have been guilty of transgression against nature in their youth. Nature never excuses, no matter how young, thoughtless or ignorant he may be. The punishment and suffering corresponds to the crime. The only escape from its ruinous results is proper, timely treatment to counteract its effects. The DRAIN, either by nightly losses, or secretly through the urine, must be stopped. The NERVE must be built up and invigorated, the blood must be purified, the SEXUAL ORGANS must be vitalized and developed, the BRAIN must be nourished. Our New Method Treatment provides all these requirements. Under its influence the brain becomes active; the blood purified so that all pimples, blotches and skin eruptions disappear; the nerves become strong and erect, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and masterly. We invite all the afflicted to call and consult us confidentially and free of charge. **Cures Guaranteed or no Pay.** We treat and cure: **Varicose, Blood Diseases, Stricture, Gleet, Emissions, Urinary Diseases, Spermatorrhea, Unnatural Discharges, Kidney and Bladder Diseases.**

The assessment of kine stock in Tekonsha township this year exceeds by nearly 30 per cent. the assessment of previous years. The high price of stock has stimulated the farmers to abandon grain raising for stock raising, in a large measure.

Cadillac has landed a factory which will manufacture last blocks and billiard cues, and is now angling for a big shoe factory. The first named institution will give employment to 75 to 100 persons, and the other, if it comes, to several hundred.

There will be quite a few farmers in Delta county this season who will be unable to sow their crops, owing to their land being flooded. This is due to the frequent and heavy rains that have fallen during the past few weeks. A great deal of low-lying land is completely inundated, and even if no more rain does fall it will be a long time before the ground can be worked.

BOERS AGREE TO TERMS.

Articles of Surrender Are Formally Signed by the Leaders of Burgers at Pretoria.

NEWS ANNOUNCED BY LORD KITCHENER

South Africans Win Concessions in Terms, But Details Are Not Yet Made Public—General Rejoicing Throughout England—Chronology of the Long Struggle.

London, June 2.—Peace has been declared after nearly two years and eight months of a war which has tried the British empire to its uttermost and wiped the Boers from the list of nations. The war has come to an end with Lord Kitchener's announcement from Pretoria that he, Lord Milner and the Boer delegates had signed "terms of surrender." This announcement had been anticipated for several days, and it was definitely forecasted in these dispatches; but its receipt Sunday afternoon took the nation by surprise, as everybody had confidently believed

except where they are guilty of breaches of the rules of war.

Dutch is to be taught in the schools, if desired by the parents, and used in the courts, if necessary.

Military occupation is to be withdrawn as soon as possible, and self-government substituted.

There is to be no tax on the Transvaal to pay the cost of the war.

Boers are to be permitted to retain their rifles to protect them against the savages and wild beasts of the veldt upon swearing allegiance to Great Britain. They will also be allowed a limited amount of ammunition.

Boers are promised autonomy within a brief period.

Great Britain will rebuild the Boer farm houses and restock the Boer farms, allowing the former owners to return to the peaceful pursuit of agriculture.

Boer prisoners in St. Helena, Ceylon, the West Indies and other British prisons are to be repatriated within a stated time provided they take the oath of allegiance to the British empire.

Great Britain promises to make a land grant to those Boers who prefer to start anew in some other colony of the empire than South Africa; Boers who wish to migrate to another country outside the British domain will receive a grant, probably in money, sufficiently large, probably to enable them to begin life over again.

War and Its Enormous Cost.
War began October 11, 1899.
Peace signed May 31, 1902.
Duration, two years, seven months and 20 days.

Total available fighting force of Boers estimated, 50,000.
Total number of British troops engaged from first to last, 500,000.

THE LOST CHORD FOUND.

John Bull—"Ooray! 'E's Singing at Last!"

that the house of commons would hear the first news to-day.

The King's Message.
The edge of the anticipation with which Great Britain awaited the promised statement in the house of commons from Mr. Balfour, the government leader, was still further dulled by the following message from King Edward to his people, which was issued after midnight:

"The king has received the welcome news of the cessation of hostilities in South Africa with infinite satisfaction, and his majesty trusts that peace may speedily be followed by the restoration of property in his new dominions, and that the feelings necessarily engendered by war will give place to earnest co-operation on the part of his majesty's South African subjects in promoting the welfare of their common country."

Kruger Hears the News.
According to a dispatch to the Daily Express from Utrecht, Holland, Mr. Kruger was informed shortly after nine o'clock last night that peace had been declared. He had been asleep. "My God," he said, "it is impossible." Mr. Kruger and his entourage, the dispatch continues, hope to be permitted to return to the Transvaal. This, however, is quite unlikely.

Great Rejoicing.
Great joy was manifested throughout the United Kingdom last night because of the ending of the war, which has been waged incessantly at enormous cost in money and life since October 11, 1899. Nowhere is the rejoicing greater than in the palace of King Edward himself. For several months it has been the leading desire of his heart and the main object of his daily duties to bring the war to an end in advance of his coronation, which takes place the 26th of the present month. He has taken a personal interest in the plans and back of the negotiations that were necessary in London before Lord Kitchener and Milner could affix their signatures to a treaty there has been a constant plea from the king: "Let us have an honorable peace."

The Terms of Peace.
The following are the terms that are contained in the document that has been signed.
No action to be taken against prisoners

PALMA'S FIRST MESSAGE

The President of the Cuban Republic Makes Public His Initial Address to Congress.

HE IS VERY GRATEFUL TO AMERICANS.

Praises the Islanders' Patriotism and Reforms Made by Government for Intervention—Chief Executive Says Prosperity of the Island Depends Upon American Market.

Havana, May 28.—President Palma's message has been delivered to the Cuban senate. The message opens by giving thanks to the Almighty for His assistance in carrying out the work of obtaining Cuban independence, and asks Divine aid in the establishment of a firm and stable government.

Grateful to the United States.

"Never did a people fight with more perseverance and sacrifice for liberty than have the Cubans. No people, therefore, are more entitled to see their just efforts crowned with success. Together with our own heroism is the attitude of the great people who were impelled by their own love of liberty to put themselves on our side in our titanic fight for the independence of this country. The promise formally made has been carried out. In this moment when we feel our right as an independent nation, it is impossible to suppress our gratitude to the United States. To recognize this debt of gratitude to the great nation is an act which exalts us and which makes us worthy of the consideration and respect of the other nations of the world."

Reciprocity.
"It is necessary now, to dictate all the laws laid down in the constitution. We are capable of fulfilling all the obligations and compromises which have been contracted, and we should prepare the budget with the greatest care."

Need of Schools.
"The office of judge in Cuba should be permanent, and to constitute this principle of immovability should be one of the first duties of congress."

President Palma declares it is the purpose of the government to devote its attention to education, and especially to primary schools. He says the government of intervention deserves great credit for the educational system it established, but that there is a need for still more schools, as the future of the republic depends upon education.

It will be the duty of the government to encourage the construction of railroads in the island, and to protect the capital already invested in railroad enterprises.

The executive says he realizes the obligation which the government contracted with the Cuban army, and that it means are now taken to make good this obligation. It is because of the bad economic situation of the country, President Palma says he does not yet know how the ordinary expenses of administration are to be met.

Favors Cordial Relations.
"It is very satisfactory to say," says the president, "that the republic of Cuba has been officially recognized by the United States, Great Britain, France, Mexico, Guatemala, Nicaragua, Santa Domingo, Ecuador and Paraguay, and we hope that other countries will also recognize our republic. We must cultivate cordial relations with all nations, and make treaties of amity and commerce favorable to Cuba. We must also take special care that the relations between Cuba and the United States be most friendly, in order that there be no difficulty in arranging the political and commercial questions which affect both countries. It is also of extreme importance that there should exist uninterrupted concord between all the people of Cuba, and that they should resolve to preserve the Cuban nationality."

THE ISLAND HORROR.

Mont Pelée Continues to Menace the Existence of the Entire Land at Martinique.

Fort de France, Martinique, May 28.—For 48 hours, Mont Pelée has again been in eruption, and the utmost panic prevails among the people here. During the day the light of the sun is obscured by the tremendous masses of heavy, ink-black clouds that are continually rolling over the town. At night the flames from the volcano shoot miles high in the air and the town is lighted from their reflection.

Denies Stories of Cruelties.

Washington, May 31.—Gen. Felipe Buenavista, of Manila, formerly Aguinaldo's secretary of war, called on President Roosevelt and said the stories of cruelties perpetrated by our soldiers were either wholly untrue or greatly exaggerated, and also said that the civil government was doing a wonderful work for good on the islands and that it had been only seconded by the army.

Kansas Republicans.

Wichita, Kan., May 29.—The republicans in convention here nominated W. J. Bailey, of Baileyville, for governor, and pledged themselves to the support of Theodore Roosevelt for president in 1904.

Inventor of Stomach Pump Dead.

Heidelberg, Germany, May 29.—Prof. Adolf Kussmaul, who introduced the stomach-pump into medical practice, is dead. He was born in 1822.
